6TH EDITION

Project Management for Engineering, Business and Technology

John M. Nicholas, Loyola University, USA. and **Herman Steyn**, University of Pretoria, South Africa.

This highly regarded textbook addresses project management across all industries. First covering the essential background, the bulk of the book is dedicated to concepts and techniques for practical application. Coverage includes project initiation and proposals, scope and task definition, scheduling, budgeting, risk analysis, control, project selection and portfolio management, program management, project organization, and all-important "people" aspects. This is an ideal resource and reference for all advanced undergraduate and graduate students in project management courses as well as practicing project managers across all industry sectors.
